

ATHLETICS EAST

www.AthleticsEast.com

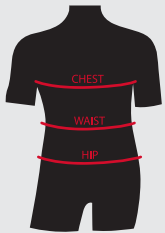

History of Athletics East

Name Inspiration- Athletics is the Global term used for Track & Field, and the brand is based and manufactures its products on the East Coast.

The Athletics East brand was established in 2014 to fill a void in the custom uniform market. It is a collaborative effort between Running Industry veteran Fred Doyle and Pop Tops Sportswear est. 1972.

Athletics East is a brand created by runners and coaches. This brand is for those looking to create products that will help their team stand out from the rest of the pack. Our products are designed and engineered to be lightweight, provide moisture management and breathability, ensure proper fit and maximum comfort. We will design a unique look for your practice and competition needs. You provide the school colors, logo/mascot, design suggestions, and we will do the rest. We use only high performance fabrics, and can do sublimation, screen printing, and embroidery. Most of our products are made here in the USA.
